## More Anti-Red Prisoners Sought By Koje Guards

399 Fearful POWs Refuse To Stay With Die-Hards; Kangaroo Court Sessions Deal Death Sentences

KOJE ISLAND, June 12—(P)—U. S. troops hunted Thursday for missing comrades of 399 frightened anti-Communist prisoners of war who broke away from 4,800 marching Reds.

The breakaway came during an otherwise orderly evacuation of the fourth trouble-ridden POW enclosure at this United Nations prison camp.

The anti-Red POWs said the missing prisoners had been haled before Communist kangaroo courts before Thursday's transfer. They did not report the number.

Death at the hands of their die-hard leaders was the fate of 16 POWs missing from an enclosure emptied Wednesday.

Many of the 399 POWs who broke away plainly feared death at the hands of their Red leaders. Others who tried to escape were dragged

## Neutral Look At Koje Urged

Republicans Skeptical About Invitation

WASHINGTON, June 12—(P)—A proposal to invite neutral military leaders to observe the treatment of Communist prisoners of war on strife-torn Koje Island is getting mixed reaction in Congress.

Some Democratic senators said it would help offset Communist propaganda about the "mistrreatment" of Red prisoners.

But Republicans, if not hostile to the idea, expressed skepticism that it would prove effective.

President Truman suggested in a letter to Secretary of Defense Lovett Wednesday that military men from five neutral nations be asked to visit Korea to see at first hand how Communist prisoners are treated by United Nations forces.

Sen. Russell (D-Ga.), chairman of the Senate Armed Services Committee and a candidate for the Democratic presidential nomination, advanced the idea in a call at the White House two days ago.

VISIT to Koje Island by high-ranking neutral military observers, Russell suggested, would be a means of refuting "the mass of falsehoods which are being broadcast to the world by the Communist propaganda machine."

Truman forwarded Russell's memorandum to Lovett with the comment that the proposal had a lot of merit.

Sen. Bridges (R-NH) took the view that "we don't need representatives of other nations to go there and tell us if we are conducting the prison camps properly." He added:

"The only trouble with American and UN supervision there is that they have been too lenient and have compromised their position."

Sen. Moody (D-Mich.) said he was glad "to see the American government taking more initiative for countering false propaganda."

## Video Is Seen Ending Secret Political Talks

COLUMBUS, June 12—(P)—Television cameras may kill off political decisions made in smoke-filled rooms, says U. S. Sen. Estes Kefauver, a major contender for the Democratic presidential nomination.

"By bringing the conventions into millions of homes, it will help to bring politics out into the open," Kefauver said. "It may help sound the death knell for political decisions made in smoke-filled rooms. Televisions will help produce open political decisions openly arrived at. In doing this, it will merit the thanks of all the people."

The Tennessee senator spoke at the opening of a new building housing television station WTVN.

Kefauver praised the television industry's devotion to public service, saying:

"The influence of television has already been so deep and wide and it is constantly increasing—that it is of the utmost importance that the men and women who guide its course be particularly devoted to the public service. I am proud to be able to say that so far the television industry has for the most part lived up to our ideals in this respect."

FOLLOWING COLLAPSE of bargaining negotiations in the steel strike, President Harry S. Truman asks Congress in Washington to enact legislation authorizing government seizure of the steel plants. He asked Congress to "act quickly" because "the issue of peace or war hangs in the balance, and steel is a vital element in the outcome."

## Escaped Convict Stabs Girl Hostage As Police Open Fire

CARMEL, N. Y., June 12—(P)—An escaped convict, making a desperate effort to seize a getaway car, stabbed a 9-year-old girl hostage to death Wednesday as police closed in on him.

Hit by three police bullets, the convict surrendered and was taken to a hospital.

His little victim, stabbed with a butcher knife as her mother looked on helpless, died an hour later.

The slayer, Donald Snyder, 25, of Canastota, N. Y., gave warning of his desperation and cried:

"If you come near me, I'll stab the child."

Alex Williams, 45, school bus driver and a special policeman, tried to persuade Snyder to release the child, Betty Lou Arnold. As he talked, he sidled up closer and fired, hitting Snyder. The convict then

## British TV Ads OKd, But Not Like In U.S.

LONDON, June 12—(P)—The House of Commons decided Wednesday to allow advertising someday on British television. The Conservative government assured Parliament that programs would not be like those in America, because Britons "are a much more mature and sophisticated people."

Intelligence officers found the Reds' documents burned. They surmised word of the transfer had come through the prison "grapevine." Leaders of compound 95 surrendered the bodies of eight prisoners killed in an April 10 clash with Allied guards.

The 4,800 Reds were herded temporarily into compound 91, where unarmed guards moved freely among them.

The 399 who broke away were taken for questioning to compound 61. Guards put with them two anti-Communists who sealed the barbed-wire fence of 91.

Kenton Killer Loses His Appeal

COLUMBUS, June 12—(P)—Chesler Gregg, 58, of Kenton is scheduled to die July 11 in the electric chair at Ohio Penitentiary for the shotgun slaying last year of his "lonely hearts" bride.

The Ohio Supreme Court set the execution date Wednesday after refusing to review Gregg's appeal from his first-degree murder conviction. Gregg was convicted of killing Alma Gleim Gregg, operator of a lonely heart correspondence club, during a dispute over her suit for divorce.

London Man Killed

COLUMBUS, June 12—(P)—Roscoe Sanders, Jr., 22, of London, was injured fatally Thursday when his automobile struck a tree on Route 142 a mile east of his home. He died in a hospital here.

They are the outgrowth of a circumstance that has nothing to do with the GOP presidential race between Taft and Eisenhower.

"They are, rather, the direct result of an intense but heretofore unrevealed bitterness among Ohio Republican leaders and delegates regarding the recent retention of Congressman Clarence J. Brown (R-Blanchester) as national committee man from Ohio and Katharine Kennedy Brown of Dayton as national committee woman.

"They also stem from a couple of minor grievances, including Ohio assignments to national convention committees, failure of the Taft forces specifically to inform Ohio delegates what is expected of them at the convention which opens in Chicago July 7 and the allocation of Ohio's 182 convention tickets."

## Taft-Backing Paper Says 6 Ohio Delegates May Tap Ike

CLEVELAND, June 12—(P)—The Cleveland Plain Dealer reported Thursday that up to six Sen. Robert A. Taft's 56 Ohio convention delegates are wavering.

The newspaper, which has announced its support of Taft for President, said the "deserters reportedly would not come out flatly" for Gen. Dwight Eisenhower.

Rather, it was said, they would announce prior to the Republican convention that "if Taft can't make it, then we will vote for Eisenhower."

"Political effect of such a decision would be tantamount to an endorsement by Eisenhower."

"They also stem from a couple of minor grievances, including Ohio assignments to national convention committees, failure of the Taft forces specifically to inform Ohio delegates what is expected of them at the convention which opens in Chicago July 7 and the allocation of Ohio's 182 convention tickets."

## Taft, Eisenhower Continue Wooing Wavering Delegates

WASHINGTON, June 12—(P)—The others have a total of 246, and 394 day with New York and Maryland GOP delegates, he was quoted as saying he favors a \$40 billion tax cut over the next two or three years.

These most active candidates for the Democratic nomination, which requires a majority vote of 616, either were campaigning separately with the same group—New Jersey's 38-member delegation or getting ready to.

Gen. Dwight Eisenhower has been holding conferences all this week with state delegates to the July 7 national convention. Sen. Robert Taft of Ohio, his chief rival for the GOP presidential nomination, arrived in New York Wednesday for the same purpose.

Their paths crossed at the outset. The New Jersey bloc, now heavily pro-Taft, meets with Taft and an hour and a half later confers with Eisenhower. The strategy on both sides: With all but 13 of the 1,206 delegates chosen, the time has come to tighten favoring alignments and win over fence-sitters and those leaning on the other way.

Neither Taft nor Eisenhower is any way near the 604-vote majority needed for nomination. The Associated Press tabulation lists 464 for Taft and 391 for Eisenhower, with 130 spread among others and 208 disputed or uncommitted.

Both are back in New York and Maryland GOP delegates, he was quoted as saying he favors a \$40 billion tax cut over the next two or three years.

Federal levies are now about \$80 billion, President Truman has requested an \$85 billion budget for the fiscal year beginning July 1 and some Republican legislators have proposed a \$10 billion tax reduction.

Eisenhower reportedly said at the closed-door session he believes a budget reduction would ease inflationary pressures and, as a result, the threat of war.

Taft already has come out with a flat promise of a 15 per cent tax cut the first year after he is elected.

Eisenhower has an important date in Gettysburg, Pa., Friday with the Pennsylvania delegation, whose 70 uncommitted votes could decide a close race. Eisenhower also delivers a speech Saturday in Detroit which may have a big influence on Michigan's 46 votes.

Taft backers were delighted with a 1944 GOP convention rule stipulating that only seating contests affecting delegations-at-large may be presented to the convention for settlement.

The rule consigns district delegations to state conventions or committees.

This regulation, if upheld at the convention, would cut down the number of votes involved and presumably benefit Taft forces which generally control state convention and committee machinery.

Los Angeles, June 12—(P)—A refreshing rainfall of .32 inches in Pickaway County late Wednesday and early Thursday was like money in the pocket for local farmers and vegetable growers.

While the need for rain here was not a "dollar sign" proposition, recent days of hot, sunny weather had begun to worry farmers about their corn and vegetable crops.

In addition, the rainfall here is expected to help fill out the kernels of this year's wheat crop, which should be ready for harvesting the first week in July.

County Extension Agent Larry Best said the rainfall was much needed in the county for a good corn crop.

Best said a lot of corn, planted late, had not even begun to germinate, while the rain was a tremendous help for corn which already is up.

And the rain will help farmers who have brought in their first cutting of hay. A second crop will spring up more readily now because of the rain.

Vegetable gardeners who had no means of irrigation and home-owners with paring lawns also welcomed the downpour. Some wheat was over because of the rain falling on head-heavy stalks, but Best said most of it probably will be in good shape by combining time.

The Voice has included in its three daily broadcasts editorial excerpts from many U. S. and other foreign newspapers attacking President Syngman Rhee and scoring recent political developments here.

The U. S. State Department has given the broadcasts to the ROK network for two years as a courtesy and not on a contract, said Dr. Clarence Ryee, director of the government's office of public information.

"However, much we may question the taste and judgment of the persons responsible for such broadcasts," Ryee told newsmen, "we do not dispute the airing of such opinions under other auspices."

The tentative plans for the new wing call for a new general operating room and 18 additional patient beds in private rooms and wards.

In addition, the new wing is expected to have a basement, which will contain a new kitchen, nurses' dining room and storage facilities.

According to the plans, the present kitchen would be converted into administrative offices.

Plans For New Hospital Wing Being Studied

Tentative approval to plans for a new wing to Berger hospital was given Wednesday night by the board of commissioners.

We are not impressed by analogies from the United States.

"We have our typically British ways of resolving problems of taste. We are a much more mature and sophisticated people."

Laborite opponents, who want the government to keep control, contend commercial TV stations with advertising, as an experiment when the country's financial position improves enough to lift controls on spending by private firms.

Home Secretary Sir David Maxwell Fyfe told the House it was foolish to assume commercial sponsors would lower TV's standards here. He said:

"I am not impressed by analogies from the United States."

## Taft-Hartley Law Seen Only Course Open

### House Panel Joins Senate In Refusing Steel Grab Powers

WASHINGTON, June 12—(P)—Hope was waning Thursday that Congress would grant President Truman legal powers to seize the steel industry so that production might be resumed.

Negative action came on both sides of Capitol Hill as a House committee voted against the President's request and Truman's backers in the Senate virtually abandoned their efforts in his behalf.

It appeared that the only course left open to the President was the one he wanted least—use of the Taft-Hartley law's injunction procedure.

Meanwhile, on another steel front, union and management officials got together with government chiefs to plan reopening a few strike-bound steel plants to produce weapons for U. S. troops fighting in Korea.

The House Banking Committee voted down 15 to 10 a proposal that Truman be empowered to seize and operate the struck steel mills.

It was the first formal vote by any House group since Truman went before Congress Tuesday and pleaded for this power.

The Senate previously had buffered Truman by voting he should use anti-strike provisions of the Taft-Hartley law in an effort to end the strike of 650,000 CIO Steelworkers.

At the same time, senators favoring seizure power for the President abandoned their fight to write it into wage-price controls legislation. They said they would propose it again later in a separate bill.

The seizure question was raised in the House Banking Committee by Rep. Bolling (D-Mo.) who proposed it as an amendment to legislation extending the economic controls law.

Bolling's amendment was a duplicate of that offered in the Senate Tuesday by Sen. Humphrey (D-Minn.) and rejected by that body.

Members reported nine Democrats and one Republican supported the seizure move in the House committee. Five Democrats and 10 Republicans were against it. One Democrat voted present and one Republican was absent.

The House group is working on its own version of a new wage-price controls law to replace the present one which expires June 30.

The law allows the government to seek a court order, good for 30 days, against a strike which imperils the national welfare.

## Planes And Tanks Blister Commies

SEOUL, June 12—(P)—United Nations fighters-bombers and tanks Thursday blasted Chinese Reds on two western front hills with deadly explosives and burning jellied gasoline, in support of attacking Allied ground troops waging one of the war's hottest actions this year.

An Allied officer at the front called the fight "probably the biggest thing that's happened here all week." The stepped-up fighting broke out 48 miles north of Seoul when UN infantrymen captured two high points. The Reds have tried unsuccessfully to knock the Allies back.

Barley nominal; malting 1.28-65; feed 1.20-30. Soybeans none.

### GRAIN FUTURES

CHICAGO, June 12—(P)—Most grains advanced while soybeans faltered on the Board of Trade Thursday. Oats scored the biggest upturn.

Soybeans moved up in the early days and at one time the July contract reached \$3.32, only one cent under the OPS ceiling which has not been touched since last May. But heavy profit-taking forced beans back and they dropped earlier the previous close.

Commission houses and local traders bought oats, which enjoyed gains extending to more than two cents at one time.

Corn followed oats higher while wheat's advance was small.

Wheat closed 3/8 lower to 1½ higher, July 2.31½-7½, corn 3½-1½ higher, July 1.84½-8¾, oats 1½-1½ higher, July 1.78½-79, rye ½-1½ lower, July 2.13½, soybeans 2½ to 7 cents lower, July 3.27½-3.27, and lard 2 to 5 cents a hundred pounds higher, July 12.15.

## Planes And Tanks Blister Commissies

**SEOUL, June 12—P**—United Nations fighter-bombers and tanks Thursday blasted Chinese Reds on two western front hills with deadly explosives and burning jellied gasoline, in support of attacking Allied ground troops waging one of the war's hottest actions this year.

An Allied officer at the front called the fight "probably the biggest thing that's happened here all week." The stepped-up fighting broke out 48 miles north of Seoul when UN infantrymen captured two high points. The Reds have tried unsuccessfully to knock the Allies back.

## Winegardner Quits CD Post

**CLEVELAND, June 12—P**—Reed M. Winegardner has resigned as acting regional director and been named consultant to the Federal Civil Defense Administration's Region 4 office.

The Washington C. H. attorney was appointed acting regional director last July and had opened the Region 4 office in nearby Avon Lake. The office covers Ohio, Michigan and Kentucky.

He said he wanted to return to the active management of his law office in Washington C. H. No successor was named immediately.

## MARKETS

### CASH GRAIN

**CHICAGO, June 12—P**—Cash wheat none. Corn: No. 2 yellow 38½-¾; No. 3, 18½-2½; No. 4, 1½-8½%; grade 1.65%-83. Oats: No. 2, heavy white 86%. Barley nominal; malting 1.28-65%; feed 1.20-30. Soybeans none.

### GRAIN FUTURES

**CHICAGO, June 12—P**—Most grains advanced while soybeans faltered on the Board of Trade Thursday. Oats scored the biggest upturn.

Soybeans moved up in the early dealings and at one time the July contract reached \$3.32, only one cent under the OPS ceiling which has not been touched since last May. But heavy profit-taking forced beans back and they dropped under the previous close.

Commission houses and local traders bought oats, which enjoyed gains extending to more than two cents at one time.

Corn followed oats higher while wheat's advance was small. Wheat closed 3/8 lower to 12 1/2; higher, July \$2.31½-¾, corn ½-1½ higher, July \$1.84½-¾, oats 1½-1½ higher, July 78½-79, rye ½-1½ lower, July \$2.13½, soybeans 2½ to 7 cents lower, July \$3.27½-3.27, and lard 2 to 5 cents a hundred pounds higher, July \$12.15.

## Weekly Food Review

By Associated Press

NEW YORK, June 12.—F—Frying chickens and eggs cost a little more in most food stores this week. Potatoes, though much more plentiful, held close to the higher price levels reached last weekend after their price ceilings were suspended.

Many fresh vegetables were lower in markets receiving sharply increased supplies from nearby truck gardens enjoying favorably warm growing weather. Citrus fruits, plums and cher-

### Anti-Deer Plan To Be Employed

CEDAR FALLS, Iowa — A new type of chemical will be tried in an effort to halt crop damage by deer in this vicinity. The test will be supervised by biologists of the Iowa Conservation Commission on a farm adjoining Josh Higgins State Park.

Six acres, exposed to deer predation, will be planted to soybeans and treated with the repellent. Two other acres in the same tract will be planted but unsprayed.

The tenant on the farm, Henry Thies, says he tried to raise soybeans on 11 acres two years ago but the deer ate the tops off the plants. The result was no crop.

### 7 Mouse Traps Slow Great Dane

CLEVELAND, June 12.—F—Deborah is such a fractious Great Dane it takes seven mouse traps to stop her.

The five-month-old dog's owners, the Rev. and Mrs. William G. Worman, got tired of having her leap up excitedly against the front window. She broke it on five occasions.

So they lined the cocked traps along the window seat. The nipping traps discouraged Deborah.

### Middletown Medic Is Cited By AMA

CHICAGO, June 12.—F—Dr. Walter H. Roehl of Middletown, O., was honored by the American Medical Association Wednesday for untiring medical care administered to passengers of a stalled Southern Pacific train last winter.

The House of Delegates adopted a resolution citing Dr. Roehl for his work during the several days the train was isolated in a snow drift near Donner Pass in the Sierra Nevada Mountains.

Lhasa is the capital city of Tibet.

### Tornado Warning To Be Broadcast

JACKSON, Miss. — F—Mississippi's highway patrol and the Jackson Weather Bureau have blueprinted a plan for a statewide tornado warning network. The nature of tornadoes makes it impossible to predict where they will strike until the familiar and dreaded black funnel appears, and then too often, it is too late.

George Fish, meteorologist in charge of the Jackson Bureau and Col. T. B. Birdsong, director of the Mississippi Safety Commission, have devised a warning system that will use the highway patrol's nine radio stations as relay points.

Highway patrolmen will be instructed in how to spot and recognize the severe thunderstorm activity that usually precedes tornadoes. They will be given a regular course in weather observing. The patrolmen will report storms to the

nearest radio relay station. This information will be radioed to the Weather Bureau which in turn will have it broadcast over local radio stations in the storm area.

### Rubber Prices Remain Low

SINGAPORE (AP) — The Malayan rubber price is likely to remain at its present low level owing to completion of United States stockpiling, in the opinion of Dr. W. E. Cake, president of Malayan-American Plantations, Ltd. The present price averages 30 cents a pound.

Rubber producers in this part of the world will now have to operate carefully and economically in order to pull through the period of low prices, he said.

Standard height of a table top from the floor is 30 inches.

### White House OKs Mac's GOP Role

WASHINGTON, June 12.—F—The Republican national convention.

Joseph Short, President Truman's press secretary, was asked if there would be any action against the general for taking part in a political convention while still in active duty. Short replied that "I refer you to what was said by the secretary of the Army."

ries were mostly higher. Beef, pork and lamb prices showed little overall change.

The one to two cents a dozen advances in large eggs was attributed to warmer weather, which increases the difficulty of maintaining top egg quality and results in slightly lower production.

Snap beans, beets, broccoli, cabbage and cauliflower led the list of lower-priced vegetables this week, but asparagus, carrots and scallops also were down somewhat in most places. Best tomatoes were higher but there was a wide range of prices varying with quality and condition. Livelier demand strengthened escarole, fresh corn and celery prices.

Watermelon was becoming more plentiful and with Texas and Arizona shipments due soon, sellers marked off their prices.

Strawberries and peaches were more abundant but good demand kept prices about unchanged. Shoppers also were buying lots of cherries, so that prices edged higher even though supplies were generally much heavier than at this time last year.

Weekend specials in markets included roasting chickens, turkeys, blade chuck pot roasts, rib roasts, ground beef, smoked hams, snap beans, onions, cabbage and cheese.

THE DAILY HERALD — CIRCLEVILLE, OHIO

White House has agreed with the Army Department's position that Gen. Douglas MacArthur is free to deliver the keynote address at the Republican national convention.

Joseph Short, President Truman's press secretary, was asked if there would be any action against the general for taking part in a political convention while still technically on active duty. Short replied that "I refer you to what was said by the secretary of the Army."

PROFIT PROP REPORT OF Federal Securities and Exchange Commission and the Federal Trade Commission has a bearing on current wage controversies. The union contention is that corporation profits have gone so high that huge wage boosts can be paid without increasing prices.

The government report shows that while corporate profits averaged 12 per cent higher in 1951 than in 1950, net profits were 12 per cent lower after taxes had been deducted.

The 1952 profit showing is expected to deteriorate further because of strikes, still higher taxes and some increases in costs. As a result, dividends will not be attractive. Corporation finance feeds on the hope of citizens with investment capital for dividends, so many corporations are cutting back plans for modernizing and expanding plants. This may have a serious effect on the hope of the oncoming generation for jobs. Some corporations may be forced to cut the present work force.

Corporation profits aren't the only prop of national prosperity to be safeguarded, but they are one of them. Any pressure group which forgets that is inviting an unwelcome harvest.

CAMPAIGN OF ORATORY PARTY LEADERS are tuning up for a campaign of political oratory which promises to surpass anything of its kind in history. Through the wonders of radio and television speeches will go directly to millions of voters for whatever effect they may have on the outcome in November.

Gov. Paul A. Dever of Massachusetts has been selected to deliver the keynote address at the Democratic national convention. Governor Dever thus will have the job of starting things off with whatever enthusiasm can be generated by his ringing phrases. Speaker Sam Rayburn of Texas will be permanent chairman. Other resonant spellbinders will make nominating speeches.

All birds are doing well this Spring except the dove of peace, which cannot find a place to build a nest.

**NATIONAL WHIRLIGIG**  
news behind the news

WASHINGTON, June 12 — The Republicans' official, 1950 declaration of party principles and objectives, which General Eisenhower has recommended as the basis for a 1952 platform, was regarded as such a "back to Methuselah" document by his campaign managers and leading supporters for the presidential nomination that they denounced it and refused to sign it.

The principal framers of this off-year statement were Senator Taft, Ike's main rival to head the ticket this year, former House Speaker Joseph W. Martin Jr., and national Chairman Guy Gabreski.

Martin favors General MacArthur in the current contest, and MacArthur openly backs Taft. Although supposedly neutral, Chairman Gabreski reflects the national committee's preference for the Ohio Senator.

**WISHY-WASHY** — The Eisenhower critics of the "liberty against socialism" creed, which was the headlinish title of the opus, included such promoters as Senators Lodge, Duff, Smith of Maine, Aiken of Vermont, Ives of New York, Governor Thomas E. Dewey of New York, Governor Alfred E. Driscoll of New Jersey and Ike's two House supporters — Representatives Jacobs of New York and Fulton of Pennsylvania.

They objected on two counts — namely, the wishy-washy, pussyfooting declaration on civil rights legislation, and the general denunciation of Roosevelt-Truman reforms as "socialistic."

Senator Lodge, Ike's campaign manager, and Governor Dewey, Eisenhower's original sponsor after his own 1948 defeat for the presidency, were the most articulate.

"What do I have to do — kiss Arthur at high noon every day before the Senate convenes to

the Senate to

Arthur H. Vandenberg Jr. is one of General Eisenhower's political aides. Just before the statement was issued, when the writer questioned Taft about reports of his feud with the since deceased Michigan statesman, the Ohioan retorted:

### PROFIT PROP

REPORT OF Federal Securities and Exchange Commission and the Federal Trade Commission has a bearing on current wage controversies. The union contention is that corporation profits have gone so high that huge wage boosts can be paid without increasing prices.

The government report shows that while corporate profits averaged 12 per cent higher in 1951 than in 1950, net profits were 12 per cent lower after taxes had been deducted.

The 1952 profit showing is expected to deteriorate further because of strikes, still higher taxes and some increases in costs. As a result, dividends will not be attractive. Corporation finance feeds on the hope of citizens with investment capital for dividends, so many corporations are cutting back plans for modernizing and expanding plants. This may have a serious effect on the hope of the oncoming generation for jobs. Some corporations may be forced to cut the present work force.

Corporation profits aren't the only prop of national prosperity to be safeguarded, but they are one of them. Any pressure group which forgets that is inviting an unwelcome harvest.

### CAMPAIGN OF ORATORY

PARTY LEADERS are tuning up for a campaign of political oratory which promises to surpass anything of its kind in history. Through the wonders of radio and television speeches will go directly to millions of voters for whatever effect they may have on the outcome in November.

Gov. Paul A. Dever of Massachusetts has been selected to deliver the keynote address at the Democratic national convention. Governor Dever thus will have the job of starting things off with whatever enthusiasm can be generated by his ringing phrases. Speaker Sam Rayburn of Texas will be permanent chairman. Other resounding spellbinders will make nominating speeches.

## These Days

Whenever I come among foreigners, particularly such as represent their countries in the United States or at the United Nations, I cannot help wondering if they know anything at all about this country and the American people or whether they even care.

In the first place, most of them congregate in New York and Washington where they only read the comparatively small circulation newspapers that please them. They read the columnists who have a great reputation as friends of Europe but whose impress in America is limited to the internationalist coterie. One would imagine that these foreign representatives would realize that as long as they are dependent upon our subsidies, they ought to know what Main Street thinks.

These people talk to each other a great deal, but they rarely talk to those Americans whose influence lopped a billion dollars and more off the foreign aid bill. When they believe, as they really do, that if we stopped subsidizing Europe and Asia, we should go into a deep depression, one can only remind them that that is what Stalin and Henry Wallace and even Harry Truman thought would happen in 1946 and it has not happened yet.

They explain this phenomenon—and they all talk alike—by saying that we stayed out of a depression by making the Korean War and by the Marshall Plan, ECA, and NATO. What knocks me over every time I get into one of these discussions is that these people honestly believe that we got into the Korean War to keep out of a depression and that the Europeans actually are doing us a great favor by letting us give them aid to defend their countries, as otherwise we should decay into a hopeless bankruptcy. The Marshall Plan, from their standpoint, was not American aid to Europe; it was European aid to America.

If you think that I am making all this up, get into an argument with these gentlemen or their ladies. It will not take you long to discover that nobody is grateful for what we have done, for \$50 billion of Lend-Lease during World War II or about \$30 billion since. We did all that to keep out of a depression and they took the money to help us stay out of depression and war.

I am a very mild-mannered person, but when I am told to my face, as often happens, that if we stop giving our money, the entire world will unite against us, I am tempted to say, unite and be damned, because there is something impudent and intolerable in the attitude of these people who accept our bounty without shame, yet hate us for it. And they seem to admit that there is an emotional response in Europe against parvenu America that is so rich and powerful.

It is like an old relative who has seen better days and who must make a nuisance of herself to prove that what is done for

## NATIONAL WHIRLIGIG

news behind the news

WASHINGTON, June 12 — The Republicans' official, 1950 declaration of party principles and objectives, which General Eisenhower has recommended as the basis for a 1952 platform, was regarded as such a "back to Methuselah" document by his campaign managers and leading supporters for the presidential nomination that they denounced it and refused to sign it.

The principal framers of this off-year statement were Senator Taft, Ike's main rival to head the ticket this year, former House Speaker Joseph W. Martin Jr. and national chairman Guy Gabrielson.

Martin favors General MacArthur in the current contest, and MacArthur openly backs Taft. Although supposedly neutral, Chairman Gabrielson reflects the national committee's preference for the Ohio Senator.

**WISHY-WASHY** — The Eisenhower critics of the "liberty against socialism" creed, which was the headlining title of the opus, included such promoters as Senators Lodge, Duff, Smith of Maine, Aiken of Vermont, Ives of New York, Governor Thomas E. Dewey of New York, Governor Alfred E. Driscoll of New Jersey and Ike's two House supporters — Representatives Javits of New York and Fulton of Pennsylvania.

They objected on two counts — namely, the wishy-washy, pussy-footing declaration on civil rights legislation, and the general denunciation of Roosevelt-Truman reforms as "socialistic."

Senator Lodge, Ike's campaign manager, and Governor Dewey, Eisenhower's original sponsor after his own 1948 defeat for the presidency, were the most artic-

ulate and vocal in their condemnation.

**DILEMMA** — Since his return from Europe, Eisenhower has discussed this dilemma with these 1950 dissenters. They have told him that, although they differed on phraseology and the specific handling of certain issues, they really believed in the broad principles enunciated in the party pronouncement.

But that is not the way they talked in February of 1950, when the Taft-Martin-Gabrielson faction charted the GOP course.

The circumstances behind the issuance of this off-year statement give it unusual importance in Republican annals. It was meant to be a mandate for the Congressional elections of that year, when it was feared that the combined Truman-labor forces might deal the party a blow by defeating Taft in Ohio. He won by 431,000 on this platform and his own record.

It was also designed to allay rumors of serious differences between Taft and the late Senator Vandenberg of Michigan, the GOP's champion of a bipartisan foreign policy. "Van" approved the statement's reference to foreign matters, which was his main concern, and made no objections to its approach to domestic issues.

Oddly, or perhaps naturally, Arthur H. Vandenberg Jr. is one of General Eisenhower's political aides. Just before the statement was issued, when the writer questioned Taft about reports of his feud with the since deceased Michigan statesman, the Ohioan retorted:

"What do I have to do — kiss Arthur at high noon every day before the Senate convenes to

Lodge demanded immediate action to the Jack Benny saga. Jack was once so down on his luck that when his agent heard a New Jersey pop vaudeville palladium was offering \$25 for a novelty animal act, he cried, "I'll take it." He borrowed two mangy Pekingese pups from a friend, carried them onstage in the Jersey theater, tied them to a piece of scenery, and proceeded to wow the audience with funny stories and wheezings on his fiddle.

Dewey also denounced the anti-Truman, Capitol Hill coalition of Republicans and southern Democrats. In view of Ike's obvious play to Dixie with his states' rights attitude on FEPC, where the general and his political backers go from here, with Ike himself recommending what appalled his backers in 1950?

## Miss Clarabelle Rinehart Is Married To Mr. Carter

Reception Given In Home

A white shantung suit was chosen by Miss Clarabelle Rinehart, daughter of Mr. and Mrs. Forrest Rinehart of 127 Pleasant street, for her marriage to Jack Carter, son of Mrs. Lee Carter and the late Mr. Carter of 126 Morell avenue, Columbus, Sunday at 3:30 p. m. in the Church of Christ in Christian Union, Circleville.

The Rev. Richard Humble performed the ceremony.

The bride, who was given in marriage by her father, selected white accessories and a corsage of pink carnations to complete her ensemble.

Miss Marjorie Rinehart, sister of the bride, was maid-of-honor and she wore a grey suit with white accessories and a corsage of deep pink carnations.

Frank Carter of Columbus, served his brother as best man.

The church was decorated with two large baskets of white gladioli and carnations, four large palms and two baskets of peonies and carnations.

Mrs. Richard Peters of Tarlton played the "Wedding March," and selections of nuptial music. Mrs. Thomas Purcell of Ashville sang, "Because" and, "I Love You Truly."

A reception in the Rinehart home on Pleasant street, followed the ceremony. The rooms of the home were decorated with arrangements of roses and other summer flowers. A wedding cake centered the bride's table and roses and burning tapers were used as decoration.

The bride's mother wore a navy blue dress with blue accessories and a red carnation corsage. Mrs. Carter wore a black dress with black accessories and a corsage of white carnations.

The bride was graduated from Circleville high school in 1950 and is employed at the General Electric Company. Mr. Carter was graduated from South high school in Columbus, where he is employed.

Following their wedding trip through the Smoky Mountains, Kentucky, Tennessee and Georgia, the couple will make their home on North Court street in Circleville.

Guests for the reception included Mrs. W. L. # Child Problems and Solutions

By GARRY CLEVELAND MYERS, Ph.D.

The child who plants some flower seeds or vegetable seeds, watches the plants come up and grow, and cultivates them and keeps them free of weeds, gains a valuable bit of education.

He is participating in creation—one of the highest types of human achievement. He can gain great satisfaction from seeing the products of his efforts and can enjoy the resulting flowers, plants and vegetables.

All the greater satisfaction may be gained when others enjoy them with him.

He grows interested in weather as he never was interested before—in temperature, sunshine and amount of rainfall. He discovers that he can improve on Nature by watering plants, by keeping the soil about them cultivated so as to retain the moisture, or by covering the plants to protect them from late frosts in the Spring or early frosts in the Fall.

He learns about diseases and insects which may harm his plants and may provide protection against these destroyers.

AND IF through his own efforts he succeeds in protecting his plants from the weeds and various other enemies, see what a vast achievement has been accomplished. Best of all, he has discovered that his accomplishments have been in proportion to how well he has planned, followed his plan, and disciplined himself in doing so.

Any person who succeeds in growing plants well must always care for them right when they need care. But when they are most in need of care may be the very time he would prefer to do something else—play, go fishing, or have some other fun.

If the weeds are allowed to grow too long on the ground gets hard around the plants, the effect is obvious. And if there has been excessive rain, there may be just one short period when the soil is dry enough for cultivation. If it isn't done then, more rains may follow and prove this neglect to be very costly.

The child is fortunate who is big enough to grow plants (and he can begin at five or earlier), with par-

## They Measure Rain In Feet In Northwest

Any Dry Day Is Wash Day For Women Out In Valsetz, Ore.

CHICAGO, June 12 — They don't pay much attention to showers in some places in the U. S.

They're accustomed to rain. Take, for instance, Valsetz, Ore., a lumber town.

The sources of weather news there used to report precipitation figures to newsmen. The stories customarily began:

"In Valsetz, where they measure rainfall in feet instead of inches," this or that happened. (It rained, probably.)

In 1950, the count reached 168.11 inches—or, to use the storied yardstick, 14 feet.

The giving out of such statistics has been halted. The lumber company said the hiring of loggers and mill hands was getting a bit too tough.

The nation's wetter spots naturally include Clearwater, Wash.

**THIS IS A** logging community on the west side of the Olympia peninsula. Weather bureau records show the rainfall there averages 129.7 inches per year.

But neither drizzle nor downpour can stay the loggers. They simply put on their rainy day gear—metal hats and rubber or water-repellent clothing. Most of them also wear woolen underwear.

"No matter how cold and wet you get," they comment rather paradoxically, "you're always warm and dry."

Boots are standard equipment in Clearwater for everybody who goes outside. The frequency of days on the dark side has had an influence on architecture and interior decoration—large windows and light shades of paint within the houses.

But moisture is good for pastures and growing trees and cranberries west of the coast range in the Pacific Northwest.

Azaleas and camellias also require lots of water, and that's what they get in the Mobile area of Alabama.

Mobile's rainfall, over a 30-year period, averaged 5.18 inches a month.

Men there keep one raincoat at the office and another one at home. Business houses in the low-lying wholesale district near the Mobile river have employees assigned to placing rain stoppers against

cracks under street-level doors at closing time.

For the women, almost any dry day is wash day.

**RAIN,** ON the other hand, creates problems in normally arid sections. One of these is Brawley Calif., where it has averaged only 2.73 inches per year.

Most of the roads there are unpaved. A rainstorm turns them in-

### 'Secret Weapon' Of British Is Malaya Iban

By A. L. MCINTYRE

SINGAPORE — Britain's "secret weapon" against the Communist terrorists in Malaya is a brown-skinned native from the land of former white rajahs.

A sturdy little man whose uncanny jungle sense puts fright into the Red insurgents, he is the Iban tracker, from Sarawak, on the island of Borneo.

Iban trackers were introduced into the anti-terrorist campaign right from the start in 1948.

When word first reached the famous longhouses of the Ibans in Sarawak that Britain needed their services in the fight against the Communist rebels, these men hastily put aside families and homes and volunteered to come over.

Today, there are 264 Ibans serving with the security forces. Descendants of the head-hunters of old who menaced foreigners trespassing their domains, the Ibans serve for only seven months in Malaya. When they return, they are replaced by other volunteers from the longhouses.

MANY IBANS are eager to sign

on for a second stretch of service in Malaya. But the absence of so many men from a single longhouse at a time affects its economy. The permission of chiefs therefore has to be sought if they want to return.

Immediately the Iban volunteer lands in Malaya, he discards loin cloth and spear and puts on jungle green. Two weeks training in the handling of modern weapons and patrol routine fits him for his first assignment in the jungle.

A special feature of the Iban—his long hair—has to be out of the way when he's on jungle patrol. Some Ibans sacrifice their shaggy mane for the milicorp. Others roll it up into a pointed contour at the back.

Stooping patiently, he keeps after footprints for hours and miles, with his compatriots of the jungle patrol following behind. His usefulness to the patrol is doubled by his ability to tell how long ago footprints were made.

Immediatly the Iban volunteer lands in Malaya, he discards loin cloth and spear and puts on jungle green. Two weeks training in the handling of modern weapons and patrol routine fits him for his first assignment in the jungle.

Stooping patiently, he keeps after footprints for hours and miles, with his compatriots of the jungle patrol following behind. His usefulness to the patrol is doubled by his ability to tell how long ago footprints were made.

Immediatly the Iban volunteer lands in Malaya, he discards loin cloth and spear and puts on jungle green. Two weeks training in the handling of modern weapons and patrol routine fits him for his first assignment in the jungle.

A special feature of the Iban—his long hair—has to be out of the way when he's on jungle patrol. Some Ibans sacrifice their shaggy mane for the milicorp. Others roll it up into a pointed contour at the back.

## They Measure Rain In Feet In Northwest

Any Dry Day Is Wash Day For Women Out In Valsetz, Ore.

CHICAGO, June 12 — (AP) — They don't pay much attention to showers in some places in the U. S. They're accustomed to rain. Take, for instance, Valsetz, Ore., a lumber town.

The sources of weather news there used to report precipitation figures to newsmen. The stories customarily began:

"In Valsetz, where they measure rainfall in feet instead of inches," this or that happened. (It rained, probably.)

In 1950, the count reached 168.11 inches—or, to use the storied yardstick, 14 feet.

The giving out of such statistics has been halted. The lumber company said the hiring of loggers and mill hands was getting a bit too tough.

The nation's wetter spots naturally include Clearwater, Wash.

**THIS IS A** logging community on the west side of the Olympia peninsula. Weather bureau records show the rainfall there averages 129.7 inches per year.

But neither drizzle nor downpour can stay the loggers. They simply put on their rainy day gear—metal hats and rubber or water-repellent clothing. Most of them also wear woolen underwear.

"No matter how cold and wet you get," they comment rather paradoxically, "you're always warm and dry."

Boots are standard equipment in Clearwater for everybody who goes outside. The frequency of days on the dark side has had an influence on architecture and interior decoration—large windows and light shades of paint within the houses.

But moisture is good for pastures and growing trees and cranberries west of the coast range in the Pacific Northwest.

Azaleas and camellias also require lots of water, and that's what they get in the Mobile area of Alabama.

Mobile's rainfall, over a 30-year period, averaged 5.18 inches a month.

Men there keep one raincoat at the office and another one at home. Business houses in the low-lying wholesale district near the Mobile river have employees assigned to placing rain stoppers against the houses.

SOME OF THE 400 schoolchildren and 25 teachers aboard the sightseeing boat New Yorker when it crashed into a North river pier at New York examine the craft's damaged hull. Eleven of the 30 injured children were hospitalized. The launch accidentally went forward instead of in reverse while attempting to back into the river. (International)

cracks under street-level doors at closing time.

For the women, almost any dry day is wash day.

A man at the Chamber of Commerce wet his lips and said: "I doubt if there has been a raincoat sold in Brawley in 50 years."

The United States has about six per cent of the world's population and produces about 12 per cent of the world's food.

Most of the roads there are unpaved. A rainstorm turns them into mud holes.

## 'Secret Weapon' Of British Is Malaya Iban

By A. L. MCINTYRE

SINGAPORE — Britain's "secret weapon" against the Communist terrorists in Malaya is a brown-skinned native from the land of the former white rajahs.

A sturdy little man whose uncanny jungle sense puts him into the Red insurgents, he is the Iban tracker, from Sarawak, on the island of Borneo.

Iban trackers were introduced into the anti-terrorist campaign right from the start in 1948.

When word first reached the famous longhouses of the Ibans in Sarawak that Britain needed their services in the fight against the Communist rebels, these men hastily put aside families and homes and volunteered to come over.

Today, there are 264 Ibans serving with the security forces. Descendants of the head-hunters of old who menaced foreigners trespassing their domains, the Ibans serve for only seven months in Malaya. When they return, they are replaced by other volunteers from the longhouses.

MANY IBANS are eager to sign

on for a second stretch of service in Malaya. But the absence of so many men from a single longhouse at a time affects its economy. The permission of chiefs therefore has to be sought if they want to return.

Immediately the Iban volunteer lands in Malaya, he discards loin cloth and spear and puts on jungle green. Two weeks training in the handling of modern weapons and patrol routine fits him for his first assignment in the jungle.

## LOST 40 POUNDS Nurse Praises Rennel Recipe

"You certainly do have an excellent product," writes Helen Hammel, R.N., 300 Roosevelt Ave., Cuyahoga Falls, Ohio. "I am an ex-army nurse, fell into bad eating habits while working, and found myself weighing 185 lbs. two years ago. Since taking Rennel I have lost 40 lbs. and my blood pressure is stabilized and general health improved. Many registered nurses of all ages think Rennel Concentrate is an excellent product and I do too. I served overseas, and still do active work once in a while. Rennel keeps me fit."

Thousands have overcome the social

and physical discomfort of being overweight with this effective home recipe.

Obtain liquid Rennel at your drug store, mix with grapefruit juice as directed, and take two tablespoonsfuls twice a day. There is no fat in it, so it doesn't seem to disappear almost like magic with the very first bottle, just return it to the manufacturer for your money back. You need never know a hungry moment while reducing with Rennel. Note how quickly bloat disappears, how much better you feel. More alive, youthful, sprightly and active. Insist on genuine Rennel.

## 'Joe College' Finding World Will Beat Path To His Door

By HAL BOYLE

NEW YORK—Graduation Day means the end of midnight panty raids on sorority dormitories for Joe College, but this year he has compensations.

In the past his sheepskin diploma has just been a dust-catching souvenir, but in 1952 it is the open sesame to financial success.

The world isn't waiting for Joe College to build a better mouse trap before beating a path to his door. It is beating his door down in the hope he can build any kind of a mouse trap.

Big business scouts have been standing in line to pick off the cream of the college graduates, offering them \$400 a month and up to start.

Usually I write a letter of advice to the June graduate. But not this year. Not after reading of one bright young fellow who is stepping into a \$10,000 a year post.

What most older men would like is a letter of advice from him on how he did it. Ten thousand dollars? Even professional baby sitters don't make that kind of money today.

But many a Joe College is going to have to postpone accepting the golden offers that come his way. There is an earlier bid for his services put in by an elder member of his family—Uncle Sam.

There is a story going around about an old-fashioned husband who thought his wife was spending too much time watching television. He put his foot down and flatly forbade her to turn the set on during the day.

The following evening he came home and caught her sitting in front of it. He bawled her out.

The next evening when he arrived she was dusting the house like crazy. But, suspicious, he touched his palm to the television screen. It was still warm—he had just switched the thing off. Sternly he bawled her out again.

"I came home a little early the next night," he said. "And guess what? There was my wife down on her knees in front of the television set blowing on the screen like mad and trying to cool it off."

Speaking of problems with womenfolk, a friend of mine had one with his very young daughter.

She had joined the Brownies—

and Mrs. Dan Bigham.

Harley Stewart of near Laurelvile was admitted to University hospital last Monday for treatment.

Mrs. Sophia Heckle of Columbus is spending two weeks with Mr. and Mrs. H. E. Defenbaugh.

"Well, honey, if you really feel sure you don't want to belong any more, just quit," said her father.

"It isn't that easy," said the little girl, dolefully. "They let you keep the blouse and skirt—but they make you rip the buttons off."

The father had an eerie vision of his daughter, standing forlornly at dawn before massed lines of other little girls as she was stripped of her rank and drummed out of the organization.

She's still a Brownie. Just couldn't stand losing her buttons.

Laurelvile Sunday guests of Mr. and Mrs. H. E. Defenbaugh were: Mr. and Mrs. C. Heckle and children of Roseville and Mr. and Mrs. William Defenbaugh and daughters Lois, Barbara, Mary Ann and Edith of Tarlton and Mrs. Sophia Heckle of Columbus.

# Door-To-Door Salesmanship On Increase

## Doorbell-Pushing Still Big Business, Proponents Claim

NEW YORK, June 12.—Is the door-to-door salesman vanishing from the American scene?

Is the modern descendant of the old Yankee peddler fading into oblivion?

"No," say the companies which depend on these people for distribution of their products. "If anything, their number is increasing."

Proponents of "direct selling," the direct distribution of merchandise from factory to home, profess to see a new opportunity for the time-tested doorbell-pushing technique in the current swing toward a buyers' market.

Time was when a certain segment of retail opinion believed the door-to-door salesman was on the way out—a victim of television.

ACCORDING to this theory, televised demonstrations of consumer products and televised sales talks which could be viewed by the housewife in her home would make the home visits of the door-to-door vendor unnecessary.

Today, however, TV is being used to promote direct selling.

Direct selling is big business. Total volume is estimated by the National Association of Direct Selling Companies at more than \$10 billion a year. According to the National Better Business Bureau Inc., with which local better business bureaus across the country are affiliated, more than 6,000 American companies are engaged in direct selling with a total sales force of 1½ million men and women.

The Electrolux Co., easily the nation's biggest manufacturer of vacuum cleaners, employs 10,000 door-to-door salesmen.

Avon Products Inc., cosmetics manufacturers, had sales last year of more than \$35 million. Its products are distributed to American homes by 16,000 independent sales representatives, many of them housewives. "We haven't deviated from this system in 66 years," says George K. Graves Jr., Avon vice president.

Then there's the ubiquitous Fuller Brush man, backbone of the huge sales organization of Fuller Brush Co., of Hartford, Conn. A host of other house-to-house vendors peddle everything from lingerie to tailored suits, razor blades to washing machines, kitchenware to sterling silver, seeds to fire extinguishers.

## Jake Lamotta Pounds Murphy, Eyes Light Heavyweight Title

DETROIT, June 12.—(P)—Jake Lamotta, the human sledge hammer who improves with age, will fight anyone "if there's enough cabbage in it." And anyone includes light heavyweight Champion Joe Maxim and challengers Sugar Ray Robinson and Randy Turpin.

Naturally a title fight against the winner of the June 23 Maxim-Robinson championship battle would please him the most.

Jake thinks his unanimous decision over Irish Bob Murphy Wednesday night in one of Detroit's wildest-swinging, most-roaring 10-round fights, proved he could campaign as a light heavyweight. Jake is a former middleweight champion but has forsaken the lighter class.

"I think I could beat Maxim easier than I beat Murphy," said the Bronx Bull. "Maxim's my kind of fighter." Jake has now won three straight in his comeback.

A CROWD of 16,008 exploded to its toes when Jake, behind on points, battered Murphy with savage rights and lefts to win the ninth and 10th rounds and the decision. Murphy had a 64-pound edge.

Observers agreed they had rare-

WASHINGTON, June 12.—(P)—While the steel strike goes on the President and Congress play beanbag. The President tosses the strike problem to Congress. Congress tosses it back.

The President's plea to Congress was: Give me a law that can do something about a strike. So far the reaction seems to be: Stew in your own juice; you already have a law.

The President could use the Taft-Hartley act, which is supposed to stop a strike for 80 days but it is questionable whether the steel—already on strike, would go back now even if ordered.

But Truman says he doesn't like T-H. He says it's a poor way to solve the problem. Philip Murray doesn't like T-H either. He's president of the striking CIO Steelworkers and a political ally of Truman.

So Truman suggests to Congress a brand new piece of legislation, giving him authority to seize the steel mills, just as he did without law before the Supreme Court told him last week to give them back.

BUT CONGRESS, or those members of it who disagree with him or don't like him or don't like labor unions, have him over a bit of a barrel. Since T-H does exist and hasn't been tried they can tell him to sit before coming to them.

If Truman had played this scene differently in the beginning—by using T-H when a steel strike was first threatened last Jan. 1—he'd have had Congress over a barrel.

If he had used T-H, of course, there's no telling how badly this might have fractured his friendship with Murray or how many labor votes it might have cost the Democrats.

If he had used T-H back in January to delay the strike 80 days, once that time was up and there was no settlement, the workers could have struck. There was no other law to stop or delay them further.

## Jake Lamotta Pounds Murphy, Eyes Light Heavyweight Title

Detroit, June 12.—**J**ake Lamotta, the human sledge hammer who improves with age, will fight anyone "if there's enough cabbage in it." And anyone includes light heavyweight Champion Joe Maxim or challengers Sugar Ray Robinson and Randy Turpin.

Naturally a title fight against the winner of the June 23 Maxim-Robinson championship battle would please him the most.

Jake thinks his unanimous decision over Irish Bob Murphy Wednesday night in one of Detroit's wildest-swinging, most-roaring 10-round fights, proved it could campaign as a light heavyweight. Jake is a former middleweight champion but has forsaken the lighter class.

"I think I could beat Maxim easier than I beat Murphy," said the Bronx Bull. "Maxim's my kind of fighter." Jake has now won three straight in his comeback.

**A CROWD** of 16,008 exploded to its toes when Jake, behind on points, battered Murphy with savage rights and lefts to win the ninth and 10th rounds and the decision. Murphy had a 6½-pound edge.

Observers agreed they had rare-

# Long Memorial Day Weekend Gives Proof 'Speed Kills'

## Road Facts Pointed Out By Sheriff

### Crash At 50 Same As Fall From 7 Stories

The recent Memorial holiday weekend has proved to some motorists that speed kills.

The fatality record of the long weekend should be enough to convince most drivers but in case there are any doubters, Pickaway County sheriff Charles Radcliff offers these facts:

A car going 50 miles per hour and striking a fixed object will suffer the same degree of damage as if it were dropped from a seven-story building.

Two cars colliding at a speed of 50 miles per hour each suffer impacts similar to a drop from a 20-story building.

Accident data of the Ohio Safety Council shows injuries at 60 miles per hour are eight times more likely to result in death than injuries suffered at 20 miles an hour or less.

Most cars handle so easily today a driver may become inattentive, especially on a long trip. Steering requires so little effort few drivers bother to keep both hands on the wheel.

**WHEN AN** emergency arises, the car is in trouble before the motorist "wakes up" to the situation. Or it is out of control by the time he comes alert enough to get both hands on the wheel.

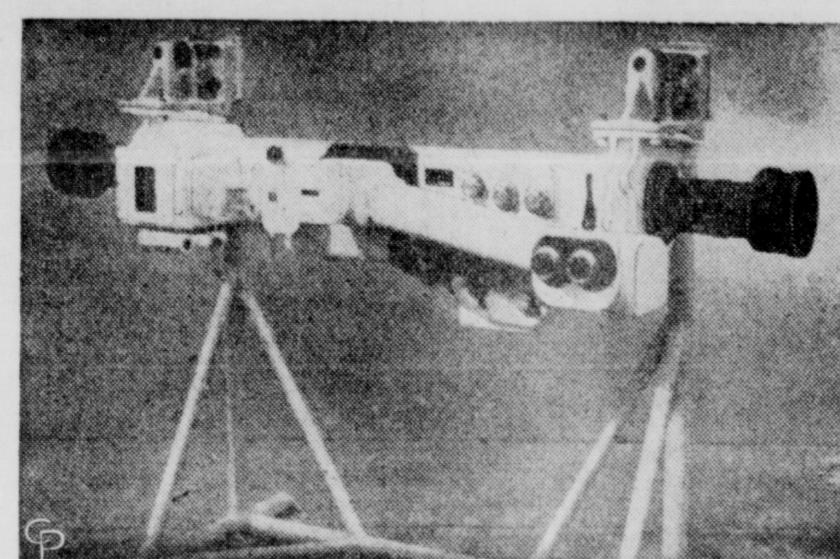

A car travels four times its length at 60 miles per hour while the motorist thinks and goes into action. If a stop is called for, twelve more car lengths are needed to bring the car to a halt.

Ohio's legal speed in the country is 50. It takes three and one-fourth car lengths to think and eight and one-half more for stopping at that pace. At least five car lengths should separate your car from the vehicle ahead.

The sheriff said thunderstorms are frequent during June, meaning wet pavement, mud or gravel which will stretch these stopping distances quite a bit.

The faster one goes the longer it takes to recognize danger. The eye can not register quickly when objects are moving rapidly. You have to see danger to be able to avoid it. Posted legal speeds are as fast as most drivers can see accurately and quickly.

Repeated tests indicate no appreciable time is saved by driving at high speed. At least once a minute on the open road you will confront a condition which requires travel

at less than 40 miles an hour, for a few moments, to insure safety.

Fatigue slows reaction time and reduces attention. The hum of tires, the warm air can lull him just enough that he is ripe for an accident.

School is out now; the sheriff would like everyone to remember. Children may be anywhere during the next three months. Few youngsters can judge the speed of approaching vehicles.
